

Main Topics:

photo/electro catalysts
PEC water splitting
CO₂ reduction
Energy storage
Bio/chemical sensors
Solar cells

1st International School on

Fine-scale Processes in Health and Energy Applications

19-21 June 2021, Sharif University of Technology, Tehran, Iran

Prof. B.K. Lee

University of Ulsan,
South Korea

Prof. L.M. Lechuga

Catalan Institute of
Nanoscience and
Nanotechnology, Spain

Prof. A. Chemseddine

Helmholtz Center for
Materials and Energy,
Germany

Prof. E. Comini

University of Brescia,
Italy

Dr. M. Qorbani

National Taiwan
University, Taiwan

Dr. Meysam Tayyebi

University of Ulsan,
South Korea

Dr. Ahmad Tayyebi

University of Ulsan,
South Korea

Dr. M. Amiri

University of Mohaghegh Ardabili

Dr. R. Mohammadpour

Sharif University of Technology

Dr. O. Moradlou

Alzahra University

Dr. N. Ashari

Amirkabir University of Technology

Dr. S. Ghasemi

University of Ulsan

Dr. M. Pazouki

Shiraz University

Dr. A. Kazemi

Iran University of Science and
Technology

Scientific Committee

Naimeh Naseri

Sharif University of Technology

Mehdi Ranjbar

Isfahan University of Technology

Ali Esfandiari

Sharif University of Technology

The school is online and the language is English
Attendance is free but online registration is required
